BANKHEAD FOR GRAY

Alabama Senator Favors Delaware Judge for Presidency.

MAKE A STRONG CANDIDATE

Senator Thinks He Would Make the Strongest Candidate the Democrats Could Name—Judge Gray a National Figure.

Washington, Aug. 16.—Senator-elect Bankhead, of Alabama, is for Judge Gray, of Delaware, for the democratic presidential nomination.

Mr. Bankhead, who is in the city on departmental business, said:

"I don't see that any good purpose would be served by the democratic party nominating a southern man for the presidency. Not that we haven't good men there, but a northern democrat will get the solid vote of the south anyway. I must confess that Bryan is looming up as a strong possibility. My own choze is former Senator George Gray, of Delaware. In my opinion, he would make the strongest candidate the democrats could name, and I believe would win over more republican votes than any other man. He is a national figure, is safe and conservative, broad-gauged and in every way fitted for the office. He would draw many votes from the laboring classes. I believe, the democracy could unite on him as upon no other candidate. With Gray as a candidate and a good, square platform declaring for tariff revision, the democrats would have an excellent chance to win. It seems to me that the tariff must be an issue in the next national campaign. If not that, then what? The democratic party is a tariff revision party. We are all in favor of controlling the trusts, and it seems to me that a revision of the tariff is the only question of paramount importance to discuss.

"Again, the democratic party is a state's right party. It believes that the laws passed by the state legislatures should be enforced by the state officials until it is decided by the U. S. supreme court that such are not constitutional. There should be no trespassing on state's rights. The republicans? Why, it looks as there are only two men they can nominate—Roosevelt or Taft."

WEDS RICH WIDOW.

Mrs. Frey Becomes Bride of a Young Law Clerk.

Pittsburg, Pa., Aug. 16.—As the result of a friendship extending back prior to her marriage to the wealthy Simon H. Frey, and an elopement to Elyria, Ohio, Mrs. Frey, probably the handsomest and wealthiest widow in Sheridan, now is the bride of Walter Sullivan, a young clerk in the law office of Marshall & Marshall.

The couple were married about a fortnight ago, and were about to leave on an extended wedding trip abroad when Sullivan was called to Pittsburg by the serious illness of brother William.

They have just revealed the secret by taking apartments in McKee place, the bride having sold her attractive home in Sheridan. Frey left his widow a big fortune.

Wreck on Southern.

Asheville, N. C., Aug. 16.—Passenger No. 8 of the Southern railway which left Asheville Wednesday morning for Lake Toxaway, was derailed at Selica, N. C., 4 miles beyond Brevard. All the cars were overturned, and went down a small embankment, and many persons were injured, though not seriously. The wreck was caused by the rails spreading.

Discount Rate Increased.

London, Aug. 16.—The directorship of the Bank of England has raised the bank's discount rate from 4 to 4½ per cent, owing to the monetary situation on the continent and in New York and the anxiety of American houses to place finance bills here which is taken to indicate possible gold shipments to New York in the near future.

WANTS FASTER U. S. MAILS.

Sen. Clay Says Railroads Are Dealt With Too Leniently.

Washington, Aug. 16.—Senator A. Clay, of Georgia, has moved upon the postoffice department to ask why the law, as it applies to delays in the delivery of mails, is not being enforced. He proposes to see what can be done about it when congress meets.

It seems that numerous complaints have come from Georgia of repeated and persistent delays on railroads carrying the mails. Failures to make connections have occurred with an amazing regularity and Senator Clay was appealed to with the hope of securing some relief for the people who were thus being deprived of the service for which the government is making an extravagant annual outlay.

Senator Clay is a member of the postoffice committee and has directed the attention of the acting second assistant postmaster general to the fact that the postoffice appropriation bill carries ample authority for the infliction of penalties for delay.

In reply, that official declared that the department was regularly imposing penalties for delayys and delinquencies. It appears, however, that the railroads are allowed numerous loopholes through which to escape, for there are innumerable excuses held by the department to be legal and valid. If anw of these causes can be shown, the fines imposed are remitted.

Whether this leniency on the part of the department is responsible for the trouble remaining unabated, it is very evident from complaints filed by Senator Clay that people in many parts of the state of Georgia are extremely dissatisfied with the mail service—or lack of mail service—they are now receiving.

HAD NARROW ESCAPE.

Party of Picnickers In Peril of Their Lives.

Barnesville, Ga., Aug. 16—Wednesday at a railroad crossing at Aldora mill, near Barnesville, a wagon load of fifteen girls on their way to a picnic at Leifsey Springs, 15 miles distant, had a very narrow escape from death.

The girls in the wagon were laughing and chatting and had no thought of any danger. They did not realize the near approach of the train when the railroad crossing was reached. In a few seconds, however, they saw the train. Terrified and screaming, the girls leaped pell mell from the wagon. The next instant the train struck the team.

The train was the fast Central from Savannah known as the Dixie Flyer. It was running at a rapid rate.

All of the occupants of the wagon leaped to safety just in the nick of time. One of the girls was slightly hurt by a fall jumping from the wagon.

One of the two mules attcched to the wagon was instantly killed. The wagon was demolished.

The party was accompanied by one young man, who acted as driver.

Old War Engine Honored.

Nashville, Tenn., Aug. 16.—President John W. Thomas, of the Nashville, Chattanooga and St. Louis railway, has presented the famous old war engine, "Texas," to the state of Georgia, and it will be mounted on a pedestal in the capitol grounds in Atlanta. The old engine took an important part in the famous Andrews raid, when a party of union soldiers captured the engine "General" while the crew and passengers were at breakfast at Big Shanty, Ga., and fled up the road toward Chattanooga with the view of burning the bridges and cutting off the escape of confederate soldiers.

Appointed Receiver.

Hartford, Conn., Aug. 16.—Albert L. Pope was Wednesday appointed temporary receiver of the Pope Manufacturing company. It is understood that the application for the appointment was made by a stockholder of the company who pretends that the condition of affairs ordinarily [illegible] business. It was stated today that large numbers of employees in the local plant were being discharged and rumors were current that an assignment was impending.

BREACH IN CABINET?

Possible Split In the President's Official Family.

AN ACUTE STATE OF AFFAIRS

It Is Claimed that There Is a Rupture Between Secretary Root and Attorney General Bonaparte Too Wide To Be Bridged.

Chicago, Aug. 16.—A New York dispatch says:

There was an extraordinary meeting of President Roosevelt's cabinet in Oyster Bay, the summer capital, in which the disturbing financial situation was carefully discussed. The one available member conspicuously absent was Attorney General Bonaparte, whose recent utterances on the subject of trust busting have aroused the ire of Wall street.

That there is an acute split in the president's official family over the government's policy for the immediate future is no longer in doubt. A breach that is said to be too wide to be bridged has come between Secretary Root and Attorney General Bonaparte.

The fear of a "Roosevelt panic" is strong in the breasts of Secretary Root and his following in the cabinet if the policy of heavily fining offending corporations is continued. They are believed to be ready to go so far as to demand that the talkative Attorney General leave the cabinet. That Mr. Root himself will resign if Mr. Bonaparte does not go and less vigorous methods are not adopted is said to be highly probable.

Not a word came from President Roosevelt's cottage regarding the questions brought up in the conference. Secretary Root, who is accompanied by Mrs. Root, remained with the president over night.

It was learned on good authority that it was arranged in the conference that Secretary Taft shall outline the policy of the administration in his speech in Columbus, and that what he says will be the most important political declaration of the year.

It will cover all live subjects now before the public; will forecast the policy of the administration in the months to come, and will to a large extent define what voters may look for should they elect a republican president next year.

SENSATIONAL ELOPEMENT.

Millionaires Son Weds Daughter of Saloon Keeper.

Lexington, Ky., Aug. 16.—Lexington society was given a violent shock when it learned that Harry Brower, son of C. F. Brower, millionaire furniture dealer, and Miss Lily Ryan, daughter of Pat Ryan, a local saloon keeper, had eloped to Cincinnati.

Confirmation of their marriage came in telegrams received by the parents of the young lovers—they are only 23 years of age.

When Millionaire Brower read the telegram he burst into a fury, it is said by members of his household, and declared that he would pursue the young couple and compel them to annul the marriage.

The bride for some months has been a stenographer in the office of the millionaire. Decidedly pretty and clever, she captured the heart of young Brower the moment he first saw her. The father suspected that his son was enamored of the girl and ordered him to forget her.

"Forget her!" spouted the young Romeo. "Never!"

And he didn't.

The groom has been a leader in practically every event in which Lexington's younger social lode has participated. He is one of the most popular young men in the city.

Gathering Reinforcements.

Tangier, Aug. 16.—Reports from Casa Blanca indicate that the Kabyles are gathering reinforcements as if preparing for a final effort to capture Casa. Drude's camp outside that city.

SLAIN BY BURGLARS.

Ohio Girl Comes Home To Find Both Her Parents Murdered.

Nablesville, Ind., Aug. 16.—Geo. W. Hudson, aged 56 years, and his wife, aged 53, were found dead at their home on their little farm, four miles northeast of this city. While the affair is shrouded in mystery, there is strong circumstantial evidence that Hudson and his wife were murdered by persons who were acquainted with their habits.

The dead bodies of Mr. and Mrs. Hudson were found by their only daughter, Alta, aged 19 years, who had just returned from a visit with relatives at Anderson and Fortville. She was accompanied from Fortville by an uncle. When they reached the Hudson home they did not see any one about the place, and Miss Hudson, presuming that her parents were at the home of neighbors, ran across the road to the home of a neighbor. None of the Evans family had seen Hudson or his wife. This aroused the daughter's suspicions and returning home she began a search.

In a bed in an upstairs room, with a bullet through her temple, was her mother. Her arms were folded, indicating that she had been shot while asleep. Her face was powder burned and there were powder stains on the pillow. Near the doorway in an adjoining room, his feet under the bed, lay her father with two bullets in his left chest.

Both bodies were cold, indicating that they had been dead for some time.

CHURCHMAN AS SALOONIST.

Would Conduct Place for Drinkers Who Do Not Curse.

Toledo, Ohio, Aug. 16.—"I want some information about getting a license to run a Christian saloon."

Wearing blue overalls, a flowing beard and a harvest field hat, the author of this strange question walked into the office of Revenue Collector McMaken.

"I have my own idea about this here saloon business," he continued. "In Antwerp, O., where I live, many men do not like to enter a public saloon. They want a quiet place, where fellows do not curse. My idea is that a place suitable for such fellows would be a paying investment. I would keep a clean; neat, quiet place, and there would be no bar—just tables, with reading matter on them."

"A sort of clubroom?" observed the collector.

"Yes. I want to see if I would have to have a regular license to conduct such a place."

The man was told that he would have to have the same license issued to men who do not conduct Christian saloons. The applicant was Edward Munsey, a wealthy churchman of Antwerp.

RESTRAINING ORDER.

Sweeping Injunction Is Issued by Federal Judge Jones.

Montgomery, Ala., Aug. 16.—An order has been issued restraining the state officials from interfering in any way with the operations of the L. & N. railroad, with regard to its refusal to put into effect its commodity freight and reduced passenger fare acts. All solicitors and sheriffs are restrained from prosecuting or making arrests for violation of said acts. The order was issued by Judge Thomas G. Jones, of the federal court, and answer is to be made by the state within ten days. This will likely bring the contest between the state and federal courts to a head.

If arrests are made under the laws, parties making arrests can be fined or imprisoned at the discretion of the judge, in which case the issue would be clearly drawn as to the jurisdiction of courts.

Tragedy In Chicago.

Chicago, Aug. 16.—Michael De Train, an Italian, Wednesday night shot and killed Alvnia Vultmann, seriously wounded her cousin, and then killed himself. De Train and Miss Vultmann were said to have been engaged at one time, but that the girl had recently refused to marry him because of his wild conduct. The man blamed the girl's cousin for his dismissal.

IMPORTANT MEETING

BondHolders of Central Confer at Meeting In New York.

PROBE STATUS OF HOLDINGS

New Purchasers of Property Requested To Tell Bondholders What They Now Propose To Do with the Railroad.

New York, Aug. 16.—Representatives of the $15,000,000 first, second and third income bonds of the Central of Georgia Railway company, have assembled in this city for the purpose of coming to some understanding with Marsden J. Perry and Oakleigh Thorne, who recently purchased the road, as to the treatment which the income bonds are to have at the hands of the new management.

It has been feared by the bondholders that the interest on their securities which is payable only if earned, may be cut off by the new controllers of the property, and it has been alleged that excessive charges out of earnings have been made for construction and new equipment.

Conferences with Messrs. Perry and Thorne were held. A committee of five was appointed to consider the suggestions offered and to report upon them to their associates at an adjourned meeting.

WILL ABDICATE.

Dowager Empress of China to Quit In Emperor's Favor.

London, Aug. 16.—Dispatches from Shanghai contain the interesting news that the Dowager empress of China has announced her determination to abdicate at the next Chinese New Year. She desires to hand over the care of state to the emperor and it is stated will call a meeting of the grand council to make the change.

The dowager empress, who is now 72 years old, has been supreme in Chinese affairs for many years. Her career is a remarkable one. The daughter of a Manchu, sold in infancy by a father who ran into financial difficulties, she became at an early age one of the secondary wives of the emperor, Hien Fung. She won his admiration and affection and bore him a son. This son she placed on the throne, but his career was brief, poison it is thought, causing his death.

As there was no heir to the throne, the infant son of Prince Chung became emperor under the name of Kwang Su. In 1889 the emperor nominally assumed full control of the government, but nine years later, when he issued some reform decrees, the regency of the empress dowager was restored, and she has vigorously kept him in the background.

LIVED IN SAME COUNTY.

But Brothers Met for First Time In Forty Years.

New Albany, Ind., Aug. 16.—Notwithstanding the fact that Julius and Joseph Didelot, brothers, live in Harrison county, within 10 miles of each other, they had not seen each other for forty years, until a few days ago, when Julius drove to the home of his brother. For the first time in two-score years they grasped each other's hands.

Julius Didelot is a prosperous farmer in Heth township, near Mauckport, while Joseph has for nearly 50 years lived on a farm in Taylor township, on the Ohio river, eight miles below this city. The brothers had never had a misunderstanding, but had simply neglected to visit each other, being busy with their work, they say.

An Aged Man's Luck.

Bloomington, Ills., Aug. 16.—Nathan Berger, of Hoopeston, received word this week that he had fallen heir to a rich mining estate in Arizona. His brother died last week and it now develops that the Hoopeston man is the principal heir. Berger is quite aged and heard the news of his good fortune with apparent unconcern.

SILAS FOMAN IN NEW YORK CITY

Old Florida Negro Snake-Charmer Claims To Be a Mexican.

LETTER FROM THE GOVERNOR.

Exhibits Snakes to Curious Crowd—People Astounded When He Allowed Big Florida Rattler to Bite Him on the Hands.

From The Times Union.

Silas Foman, the old negro snake-charmer, who has resided in Jacksonville for many years, interesting the tourists during the winter months by giving exhibitions in front of the hotels with various kinds of native reptiles, and who has claimed for years that he has an absolute cure for snake bite, is now in New York where he is attracting much attention.

Sunday's New York World contained quite a lengthy account of Silas Foman, and his career with snakes, and in no portion of the article does it state that Foman is from Jacksonville, and that the snakes now in his possession are native Florida rattlesnakes. Together with the article the World presents a picture of Foman, which is a good likeness of the old negro.

The story as published in The World is as follows:

New York Story.

Silas Foman believes he has a snake medicine even better than the old Seminole kind that 'your father used before you.' It is liquid, too, and is intended for internal use in extreme cases, but even the promoter admits that 'old Hainteek' excels the new brew.

He made a try once when he took a dose of his own medicine just after receiving a thrilling attack by a prodigious diamond back rattler. The occasion was not scheduled on the entertainment program provided for the guests on the lawn of Frank D. Wallace's residence, at Avenue U. and East Fifth street, Brooklyn.

Not a Mexican.

Foman comes from Mexico, where he was born of an Indian father and negress mother. Some one told him that the Government has a standing reward for the discovery of a snake bite remedy which cures but never fails, and he came East in the expectation of holding an audience with President Roosevelt and collecting what he is entitled to the reward. In behalf of Foman, Lawyer Samuel Stumpf, of No. 44 Court street, has written to the President at Oyster Bay asking if it is in his pleasure to confer in some form snakebite.

The snakes which Foman brought with him from Mexico is not of the Florida rattler brand. It has fangs in its wisdom teeth, and a Coney Island snake expert who doubted the genuineness of the reptile immediately took poison snake and declared he wouldn't use the rattler in his show for $1,000.

Handled Snakes.

Foman was mighty cautious in handling the snake when a neighborhood audience formed in a circle on the lawn to see the show. He was careful to keep out of striking distance except when he manoeuvered so as to seize the rattler by the neck. The reptile struck repeatedly at his high-topped Mexican boots, and he warded it with his silver-tipped sombrero held on the end of a stick.

He was preparing to move the rattler to the box, when Mr. Ketchum asked a question. Foman was taken off his guard for an instant. The rattler's head and body darted forward. The man uttered a cry of pain and clapped his right hand as he leaped away. The spectators fled in terror.

Used His Cure.

A physician who was present examined Foman's hand and saw blood coming from three lacerations on the fingers. The Mexican took a bottle of the cure from his pocket and quickly bathed the wounds. He called for a bandage, and when it was brought to him he saturated it with the remedy and bound his hand. When the fingers began to swell he had recourse to internal application of the medicine, and an hour later the only ill effects apparent were the lacerated fingers. He removed from one wound a small fang which had been torn from the rattler in the attack. Foman drew his father, an Indian chief, imparted to him the secret of brewing the cure from native herbs and bark.

Letter From Governor.

"Foman has letters from Governor Broward of Florida, who is a believer in the efficacy of the cure and from physicians in Mexico who have used it successfully. He asserts that it is also a specific for hydrophobia.

"'I am anxious to have an official test made by the government,' Foman said yesterday, 'and if the cure proves all I claim for it I am in hopes the Government will adopt it. I will submit to attacks from any snakes the Government may provide and prove that my medicine will cure the bites.'"

A FINE DOG.

Captain J. M. Dell Receives a Fine Pointer from Illinois.

Captain J. Maxey Dell, who is one of the most enthusiastic bird dog fanciers in the State, is happy over the possession of a pointer pup with a pedigree that will bear inspection.

This dog, Sam's Hard Cash, was purchased from J. M. Baird, Olney, Ill., and arrived by express Thursday. The pedigree, which will be of interest to dog fanciers everywhere, is as follows:

"Sam's Hard Cash, pointer, whelped September 2, 1906. Sired by Hard Cash, dam, Roxcyrano. Hard Cash sire, Young Jingo, dam, Bella Pointer. Roxcyrano's sire was King Cyrano, dam, Roxy Kent."

Captain Dell expects to bring his dog upon the street for the inspection and admiration of sportsmen as soon as the pup is sufficiently rested from his long journey.

A SAD DEATH.

Mrs. W. L. Pickett Passes Away at Tiger Bay.

Jonesville, August 15.—The dark angel of death entered the home of W. L. Pickett at Tiger Bay, Fla., on last Saturday evening about four o'clock, and bore away on its pinions the spirit of his beloved wife, Mrs. Thelma Pickett. The body was brought here last Monday and the funeral services were conducted by Rev. G. T. Taylor Tuesday morning about ten o'clock. Mrs. Pickett was a native of Georgia. She moved to Lakeland with her parents about seven years ago, later moving to Tiger Bay. There she met and loved the worthy Mr. Pickett, and on the second day of September last she became his bride. They came and made their home here until March, when they decided to locate at her former home. On the 3rd. inst., a sweet little girl came to their home, and the hopes of her loved ones were high until Thursday, when the physician pronounced her death near at hand. The baby is doing nicely. Deceased was about twenty years old and was a member of the Methodist church. She numbered her friends by her acquaintances, having one of the sweetest of dispositions. She leaves to mourn her death a loving husband, a mother and father, three sisters and one brother, besides other relatives and innumerable friends, to whom the sympathy of this whole community is extended.

ONE WHO LOVED HER.

Pomroy Scrugge Building.

Pomroy Scruggs of East Gainesville has decided to erect a new home, and has awarded the contract for same to August Wenske.

The material has been ordered, and as soon as same arrives work will begin. The work will be pushed as rapidly as possible, and Contractor Wenske declares this will be one of the neatest cottages in that section when completed.

In this connection, Mr. Wenske requests The Sun to state that he has again engaged in the general contracting business, and that he is prepared to give bond for the performance of all contracts which might be awarded him.

Mr. Turner and the Rattler.

W. S. Turner of Micanopy was in the city Friday, renewing his subscription to The Sun.

Mr. Turner, on last Sunday, while returning from church, came in contact with a six-foot rattlesnake, which he proceeded to dispatch without ceremony. His snakeship possessed twelve rattles and the customary button, which Mr. Turner brought as evidence of the truthfulness of his story.

The Southern Express Company is now occupying new quarters, having moved to the new Graham building, corner of East Main and East Mechanic streets, where they have fitted up one of the handsomest and most modern offices in the State.

Money to Move Crops.

New York, Aug. 15.—Secretary of the Treasury Cortelyou, according to the Times, has decided again to come to the relief of the money market and distribute government funds to aid the movement of crops this year. One of the ideas in the minds of the officers of the treasury department is that the government should place its funds in the banks subject to withdrawal by check.

Body of Morton Is Found.

A PLEASANT OCCASION.

Bessie and Earl Kelley Entertain a Number of Friends.

One of the most enjoyable social functions of the season was the party given by Miss Bessie and Earl Kelley complimentary to their young friends, at the home of their parents, Mr. and Mrs. J. L. Kelley, 500 South Hernando street, Thursday evening. There were about forty present, and those who attended thoroughly enjoyed the evening.

The feature of the evening was the game of Prophecy. Numerous pieces cut in the form of clover leaves were first cut and hand painted, and each guest was required to prophesy as to the future of another of the opposite sex.

During the evening Misses Leonora Kidd, Ila Eddins and others performed on the piano, and Miss Rosabel Fredrick favored the guests with some sweet vocal selections.

Delicious refreshments of ice cream and cake were served.

The home was attractively decorated with Japanese lanterns, suspended from the porches, with floral decorations on the interior.

At a late hour the guests departed, with an expression of many thanks to the clever entertainers for the pleasure of the evening.

THE TELEGRAPHERS' STRIKE.

Situation So Far Has Not Effected the Gainesville Office.

As far as the Gainesville local office of the Western Union Telegraph Company is concerned the public would never know that one of the greatest and most extensive strikes in the history of this country has been in progress for four days.

There has been no "walk out" on the part of the force here, and everything is running as smoothly and with almost the regularity as if nothing had happened.

Manager McCormick, in speaking of the situation, stated to The Sun representative that, while the business of the office had naturally fallen off somewhat, the force was handling that which did come promptly and satisfactorily. There are possibly many who, feeling that there might be a delay, have either used the long distance telephones or the mails for the transmission of messages.

In the Mayor's Court.

Because, it is alleged, that Charles Williams, colored, persisted in abusing his wife, and actually struck her, he was arrested and arraigned in Mayor's court Thursday morning on a charge of fighting, when the court imposed a fine of $5 and costs. The fine was paid and the defendant released.

Matters have been distressingly quiet with Marshal Arnow and his force for the past two days, the officers having little or nothing to keep them employed. This speaks well for the orderly conduct of the city.

HAS PURCHASED HOME.

Mrs. Mershan of Fernandina Will Educate Her Children Here.

So favorably impressed has Mrs. Judge Mershan of Fernandina become with Gainesville and its educational advantages, both in the higher and lower degrees, that the lady has purchased a desirable home and, with her family, will reside here in future.

Mrs. Mershan had read and heard a great deal about Gainesville, its religious and educational advantages, morals, etc., and last week decided to pay the city a visit and see for herself. The result was that she purchased the Orr property, opposite the University grounds, and as soon as arrangements can be made will come here to live.

Mrs. Mershan has two sons, one of whom will enter the University, and the other the Gainesville Graded and High School.

The citizens of Gainesville will gladly welcome this estimable lady and her family.

THE CITY'S DEEP WELL.

Contractor Allen Making Good Headway at Water Works.

As has already been mentioned in the proceedings of the City Council, the city has entered into a contract with J. L. Allen, a practical well borer, for the sinking of a deep well at the plant of the water works, and the work has already begun on the same.

This well will be twelve inches in diameter, and is calculated to relieve the scarcity of water which has alarmed the city and annoyed the consumers from time to time.

The contract price on this job is $2.50 per foot, and it is not yet determined how deep it will be necessary to go. It is not the intention of the city to produce a flowing stream.

A Prominent Visitor.

Among the prominent visitors to Gainesville Friday was Hon. S. W. Rowley of San Mateo, the beautiful little town by the St. Johns, a few miles below Palatka.

Mr. Rowley is an extensive grower of tobacco and manufacturer of cigars. He is also connected with the immigration department of the Florida East Coast Railway, and has accomplished a great deal in building up that section of the State.

Mr. Rowley is one of the leading Republicans of the State, and has made himself felt in the political arena of Putnam county, where he has great influence.

The Dutton Bank.

Attention is directed to the change of advertisement of the Dutton Bank, which appears elsewhere in this issue.

This is one of the strongest financial institutions in the country, and announces that it is the oldest bank in Central Florida, having been established by H. F. Dutton & Co. in 1873. The institution is conducted by a conservative set of officials who are as liberal as possible to all customers.

The Dutton Bank has a paid-up capital of $75,000, and is a county and city depository.

A Surprise Party.

The little friends of Miss Ruth Jernigan, upon the occasion of her birthday, tendered her a surprise party at the home of her parents, Mr. and Mrs. L. A. Jernigan, East Gainesville, Thursday evening, and for an hour or more the Jernigan home was one of clatter and merriment.

The evening was passed in a manner appropriate to the occasion, and during the evening delicious refreshments were served.

About fifteen were present, and all report a delightful time.

T. B. Folks Chased Deer on the Square Thirty-Four Years Ago.

T. B. Folks, wife and son, Fleming, of Sweetwater, this county, are among the visitors to the city, being guests of Mr. and Mrs. D. and Mrs. Folks' first visit to Gainesville for thirty four long years, and it is not surprising to hear him remark that he notes a great big change. When he left this town it was little more than a crossroads trading point, where he and others were accustomed to chase deer and panther and other big game through the black jacks, where the elegant court house and fine brick stores now stand.

Mr. Folks had heard of the wonderful growth of Gainesville, but entertained no idea of its broad scope, for in place of mud-holes and ponds he now sees elegantly paved streets and fine houses.

MARTHA PERRY INSTITUTE.

This Building Will Undergo Thorough Overhauling and Repair.

The good people of Rochelle are determined not to be outdone by other school districts of the county, with the result that they have decided to thoroughly overhaul and repair Martha Perry Intsitute building, which has for years been recognized as one of the leading schools of the county.

The board of trustees, comprising J. A. Tucker, chairman, J. K. Feaster and Bruce Zetrouer, are among the most progressive in the county. The board will personally supervise the work, and when the fall term opens old Martha Perry will loom up handsomely with her new coat of paint and other improvements.

Mr. Brown in Maryland.

E. E. Cannon has received a letter from E. B. Brown, who recently left for a visit to his old home in Maryland, bearing information that, after a pleasant trip, he arrived safely at Smithsburg, that the weather was fine, and that he was having a good time among the friends of his boyhood days.

Mr. Brown expects to be absent about a month.

NEGRO PRISONERS AND WHITE.

The Atlanta Constitution says a recent report on the number of prisoners and juvenile delinquents in institutions of detention and correction in this country presents several facts of more than ordinary interest.

The statistician, Dr. Roland P. Falkner, special agent of the bureau of the census which instituted the work, and Miss Hanna, who carried it on, has discovered:

That more negro prisoners than whites in proportion to population.

That white prisoners are more intelligent.

That the proportion of women prisoners is small.

That while the total number of negro prisoners increased during the year [illegible] the total number [illegible] the proportion was greater.

That the number of colored prisoners [illegible] in only 184 of the whole, while in the census of 1900 they formed only 12.1 per cent. of the population. Of the prisoners, there were in 1904, 67,043 whites and 24,326 colored. Among the colored people are included 1,261 Japanese and 714 Indians.

That there should be in proportion to population more white criminals to be punished.

That the report shows that the colored people were responsible for nearly one-third of the more serious crimes for which prisoners were committed.

That these conditions are not confined to the South, but hold good in every [illegible] except in Arizona and North Dakota, where the colored population is somewhat [illegible] of Indians.

In discussing the age of prisoners, the report points out that 60 per cent. of those of known age committed during the year 1904 were between 20 and 40 years, and that 71 per cent. of the negroes were under 30 years of age.

This is further substantiation of the belief held throughout the South that the younger generation of negroes are more idle, shiftless and criminal than those born before the war. Whether due to heredity or environment, this fact remains. Whether the criminal instinct develops earlier in the negro; or whether the present condition of family life among the race, the lack of discipline which surrounded them in former days, has served to make criminals of the younger negroes, is an academic question. The records prove that the proportion of negro prisoners is greater, they commit most of the more serious crimes and the average age of the criminal is younger than for the whites.

Senator Mallory again reminds his friends that he is a candidate for re-election. His health has greatly improved during the past few months and he will meet his opponents on the field of battle. If the people do not return Mallory to the United States Senate they will be guilty of base ingratitude, for they never had a more faithful or more able representative in the upper branch of Congress.

The manufacturers in summer goods, remarks a New York editor, must be a business adjustment to meet the remains of the family purse depleted by vacation expenses.

THE NEWSPAPER BUSINESS.

A contemporary says there are over 23,000 newspapers in the United States and yet there is no other branch of business in regard to which such dense ignorance prevails as to cost and profit of production.

This is a matter which is fast becoming of public concern, for the character of the American press and its future influence as the protector of American liberty depends upon it.

Some extremely important facts bearing upon the cost of publishing newspapers in the city of New York have recently been given in a brief submitted by Mr. John Norris, on behalf of the publishers. Mr. Norris is an acknowledged expert upon the subject of which he writes, having long been connected with the business departments of leading New York and Philadelphia newspapers. He has made an exhaustive investigation and his brief is a document of extraordinary significance.

Mr. Norris does not hesitate to say that there is now impending over the daily newspaper press of New York the most serious menace that ever confronted it. This is strong language, and yet his statement of facts seems to warrant it. An additional burden of $3,000,000 a year in the expense account of sixteen daily newspapers constitutes the menace of which Mr. Norris speaks, but there is a larger menace than that back of these figures, of which account will be given later on. This $3,000,000 a year of added expense includes $2,100,000 for white paper, $600,000 additional for compositors, $200,000 additional for stereotypers, and $100,000 additional for other labor. Mr. Norris declares that no more than four papers out of the sixteen which he represents could make both ends meet upon such terms. He adds that these sixteen papers pay $1,500,000 a year tribute to organized labor—that is to say, that is the additional cost of a closed shop over an open one. He is not antagonizing the closed shop, the principle of which he accepts, but he asks how long the newspapers will be able to meet these additional charges upon them. "We are," he says, "approaching that limit where our necessities may force us to stop."

Here are some additional facts picked at random from Mr. Norris' brief: Ninety per cent. of all newspaper circulation in New York City is on the one-cent basis. The sale of advertising space is also on a declining rate. Since 1895 the earning power per column of most of the New York papers has been reduced. A powerful combination of dry goods merchants has operated to reduce the line charge. This dry goods combination stayed out of The World for seven months, boycotted The Sun at the time of its labor trouble, and has been out of The Times for about four years. When The New York World reduced the price of its paper from 2 cents to 1 cent, it gained 80,000 circulation in three weeks, but gave up $1,000 a day, $312,000 a year in revenue, and added at least $500 a day to its expenses. That meant a loss of $450,000 a year in gross revenue. Mr. Norris went on to say that The New York Times is prospering, but that the fact was painfully evident that its profit for a long period would not pay for the additional cost on its new building, which was put upon it by the many unions in fights to which The Times was not a party. These fights added $538,000 to the cost of construction. The Herald is a 3-cent paper and can afford many extravagances and submit to many exactions, but there are extremes beyond which 1-cent papers cannot go. The demands, he declared, are verging upon the point of putting up some newspaper shutters. The New York World pays out $2,500,000 a year for labor. This is at the rate of $50,000 a week, and the remarkable fact is stated that there are 1,000 men now on its pay roll who receive over $1,500 a year. The news dealers make a profit of $1,500,000 every year from its sale. The smallest share of returns goes to the newspaper capital. Mr. Norris goes on to add that the daily newspaper business is the most precarious venture that can be devised. The most prosperous in the city spends 80 per cent. of its revenue in its operating expenses, while most of the papers show deficits. The newspaper percentage of profit is less than that of any other manufacturing enterprise. For every $1,000 of increased business gained by at least one paper more than $1,000 has been paid out to get it. In a period of ten years The New York World's expenses increased 40 per cent. and its earning power decreased fully as much.

Such facts as these are staggering. Unless conditions change they point to very important changes in the character of the newspaper press. The liberty of the press is one of the safeguards of our civilization. It is essential under such a form of government as we possess that the independence of the press should be preserved. Independence is best maintained by the operation of newspapers for profit. Any other method of operation simply means a subsidized press.

Joseph Pulitzer, when he learned the cost of cutting down the price of his paper from 2 cents to 1 cent, declared, "we prefer power to profit." Either a newspaper is to be conducted for profit or else it becomes dependent upon some rich man like Mr. Pulitzer, who is willing to conduct it for the power it gives him, or else upon some rich man like Mr. Hearst for the political opportunity which it affords, or else the newspaper must be subsidized by the great corporations and become not the independent organ of public opinion, but the subsidized organ of corporation interest. This is the greater menace.

The County Commissioners of Hillsborough finally won out in their efforts to compel the lessees of county prisoners to put Harry Bomford at work in the convict camp, instead of allowing him to retain his position with Knight & Wall in Tampa. The commissioners are to be commended for the determined stand they took in the case.

That St. Louis judge who ruled that a base-ball player is a laborer was all right; for he certainly can go out on a strike.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DISASTERS IN JAPAN

Floods, Earthquake and Typhoon Take Lives.

SURVIVORS ARE IN DISTRESS

At One Place an Earthquake Caused the Ground to Sink Fifteen Feet, Resulting in a Heavy Casualty List and Great Property Damage.

Victoria, B. C., Aug. 15.—The cable reports heavy loss of life in central Japan through floods.

At Kozza Shima, an island of Hiro, there have also been many deaths accruing from an earthquake.

At Tashiawa it is reported that the ground fell fifteen feet. The casualty list was heavy, and the damage to property immense.

The floods in Hiro Shima province cost many hundreds of lives, and the survivors are in a serious case as to food and shelter.

A typhoon at Kobe is reported to have caused great destruction.

The steamship Nachigawa was driven into the breakwater at Osaka and sank immediately. Only one life was lost, a woman being carried down with the steamship. About eighty persons were saved.

DETECTIVES DOG LANDIS.

Men Are Send To Be in Oil Trust's Employ.

Logansport, Ind., Aug. 15.—The friends of Judge K. M. Landis, who recently imposed such a heavy fine on the Standard Oil company, assert that the judge is being shadowed by detectives in the employ of the trust, and his every word and movement is being reported promptly to Standard Oil people.

The report is founded possibly on the fact that when Judge Landis came here to spend his vacation two strangers came here also, and when he went to Indianapolis they appeared and remained in that city while he was there. When he returned to Logansport the two men came there also and have been joined since by a third man.

Judge Landis is reported as being advised of their presence and as saying, "I guess I can stand inspection."

Just what is expected to be gained by keeping an eye on Judge Landis no one knows.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend in the strongest terms possible each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, indigestion, catarrh of stomach, "liver complaint" torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung disease except consumption accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes that has any such *professional* endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

MRS. EDDY'S MENTAL STATE.

Three Masters Appointed to Determine Her Competency.

Concord, N. H., Aug. 15.—Three masters, appointed by Judge Chamberlin, of the superior court, to determine the competency of Mrs. Mary Baker G. Eddy, head of the Christian Science church, in connection with a suit brought by "next friends" for an accounting of Mrs. Eddy's finances, began their hearings Tuesday.

The masters are Judge Edgar Aldrich, of the United States district court; Hosea W. Parker, of Claremont, and Dr. George G. Jelly, of Boston, an alienist. Their commission is to determine whether or not Mrs. Eddy, on March 1, of this year, was mentally competent to execute a deed transferring her property to trustees. Counsel for the "next friends" contend that the trust deed is illegal, because of the alleged incompetency of the maker.

For the "next friends" William E. Chandler outlined the suit and defended its good faith. Counsel for her "next friends," he said, had been handicapped in the preparation of their case by the refusal of the court to allow many motions of importance.

Don't Be Blue

And lose all interest when help is within reach. Herbine will make that liver perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine, for these troubles, on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." Sold by W. M. Johnson.

Trolley Car on Fire.

Philadelphia, Pa., Aug. 15.—A broken feed wire on the Germantown trolley line Tuesday set a crowded car on fire, caused it to collide with another car and resulted in severe injuries to eight persons. With the exception of Motorman Benson, who was severely burned, all those hurt were women. Their injuries are not so serious.

Bill Nye's Brother Dead.

New York, Aug. 15.—Frederick W. Nye, brother of the late Bill Nye, and an assistant editor of the Sunday World, died Tuesday of injuries by being struck by a trolley car. Mr. Nye had written many humorous poems and the book of a comic opera.

Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Sold by W. M. Johnson.

LABOR DAY EXERCISES.

Will Be Held at Jamestown Exposition Grounds on Sept. 2.

Norfolk, Va., Aug. 15.—The labor committee of the Norfolk and other tidewater Virginia central labor unions have made arrangements with the Jamestown Exposition management, whereby labor day exercises will be held on the exposition grounds on Sept. 2, 1907, at the exposition grounds.

The committee have invited some of the most prominent men in the labor movement to be their guests and deliver addresses on labor day, among them being President Gompers, of the American Federation of Labor; President John Mitchell, of the United Mine Workers of America; Hon. William Randolph Hearst, of the New York Journal and Hon. Claud A. Swanson, governor of Virginia.

The exercises will comprise athletic track and field meeting, and they are promised to be the best ever held by any labor organization, and this athletic feature is to be under the auspices of the So. A. A. U., which is sure to bring as competitors for the prizes offered, the leading athletes of the country.

The committee having in charge the exercises has extended invitations to all the labor organization to send a representative to Norfolk to participate in the celebration of labor day, as it has never before been celebrated.

The Jamestown Exposition company when giving out contracts for the handsome buildings which now adorn the exposition grounds had the union labor clause inserted in all its contracts.

CONFESSIONS MADE.

Jerome Has Secured Facts Regarding Armenian Plot.

New York, Aug. 15.—According to an announcement by District Attorney Jerome and Deputy Police Commissioner Woolle, the detective bureau has arrested the ringleaders of the Hunchakist secret society and had obtained confessions from them, that will end the existence of the organization.

Kassak Gelilian, arrested Sunday night, confessed to Mr. Jerome, the police say, after a grueling examination which lasted more than six hours, that it was he and no other who had directed the murders of Father Kasper Vartainian, whose body was cut to pieces, and the wealthy rug merchant Tavshanjian, killed as he was entering his office near Union Square.

He furthermore declared, it is said, that he had stood by while Bedros Hamptzoonia awaited the coming of the victim and pointed out the doomed man.

It is given out by Detective Petrovsino, who has had the actual investigation in charge, that Father Martouguessian, who has been under arrest in connection with the murder, is not directly connected with the society, though he is still believed to have known a great deal of its inner workings.

SHIP HIT BY WATERSPUT.

Narrowly Escapes Foundering from Column of Water.

Norfolk, Aug. 15.—The schooner Charles T. Strann, from Baltimore to Newbern, N. C., poked her nose into a waterspout in Chesapeake Bay and came alarmingly near to foundering.

Captain Marshall, of the schooner, said, when he reached here, that it was the worst experience he has had in his twenty years at sea, and that nothing worse, short of sinking, is likely to overtake him.

A torrent of water poured upon the deck, carrying away staysail, boom, jib, boats and everything movable that was on deck. Even the heavy hatch covers were displaced. The vessel groaned as if she would go down and then righted herself when the water ran off her deck.

Mariners here say it is the first time a waterspout has struck a vessel in these waters within their knowledge.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or cures by diving into the scalp to get at the root of the hair where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

DARK SECRETS

Of the "Black Hand" Are Disclosed by One of Its Members.

New York, Aug. 15.—As the result of the arrest of several men in Little Italy, for alleged "Black Hand" operations, the police have secured many of the secrets of that band of robbers.

The information came from one of the men arrested, who claims he was drawn into the "black hand."

The man, George Sportally, was invited to become a member of "Patriotic Union Society," with officers in New York. He took the initiation, which was a hair-raising performance. Drops of blood were taken from his arm and mixed with that drawn from another member of the society.

He was compelled to swear eternal allegiance and obey, on crossed daggers, while another dagger was pressed against his breast. His name was enrolled in a formidable black book, on the cover of which was painted a dagger dripping with blood.

MEMORIAL TO SUMTER.

Unveiled at Grave of General Near Statesburg, S. C.

Sumter, S. C., Aug. 15—The memorial tomb to General Thomas Sumter was unveiled Wednesday morning at the grave of the general, at Statesburg, this county, his former home.

Although the place is three miles from the nearest railroad station, hundreds were in attendance.

Sumter was the leader of the South Carolina partisan generals during the revolution, and his indomitable pluck caused him to be nicknamed The Game Cock, which is now the emblem of this county and town.

Cornwallis described him as the greatest curse of the British army. The historian, Bancroft, said of him "his campaigns led up to the victories which not only redeemed South Carolina from British rule, but gained the independence of America."

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

TOWN AROUSED.

Vicious Assaults Made on Women at Petoskey, Michigan.

Petoskey, Mich., Aug. 15.—This town is greatly excited over two assaults that have been committed within a few hours. The decapitated body of an unknown negress was discovered on the railroad tracks and there were evidences that the woman had been assaulted.

It is believed that her body was placed on the railroad track to cover up the crime.

A man with a revolver entered the home of Fred Mittenberg during the night, chloroformed Mrs. Mittenberg and assaulted her.

The woman was unconscious when found by her husband, a bartender, from Chattancoga, Tenn., who came here to work for the summer.

NOTICE OF APPLICATION TO APPLY FOR LETTERS PATENT.

Notice is hereby given that the undersigned will apply to the Governor of the State of Florida, at Tallahassee, the capital of Florida, on the 28th day of August, A. D. 1907, for Letters Patent, incorporating W. B. Phifer Company, under the following proposed charter.

W. B. PHIFER,
S. F. WAITS,
S. D. PRINCE,
H. L. PHIFER,
J. A. PHIFER,

PROPOSED CHARTER OF W. B. PHIFER COMPANY.

The undersigned do hereby associate themselves together for the purpose and object of becoming incorporated under the laws of the State of Florida, for the transaction of business under the following charter:

Article I—The name of this corporation is W. B. Phifer Company. Its principal office shall be in the City of Gainesville, Alachua county, Florida, and its business shall be conducted in Alachua county, and in other counties and places in the State of Florida, and elsewhere, through offices, branches, agencies or otherwise, as may be necessary.

Article II—The general nature of the business to be conducted, transacted and engaged in by this corporation, shall be to build, own and operate saw mills, dry kilns and their appurtenances, tram roads and logging plants; to buy, manufacture, sell or otherwise deal in lumber of all kinds, cross-ties, wood shingles and laths; to make and manufacture, buy, sell and deal in turpentine, rosin, naval stores, gum, tar, charcoal and other products and by-products from timber, pine trees, wood and stumps; to buy, operate, sell, own, build and operate retorts, machines and machinery, and other devices for the manufacture of turpentine, rosin, tar and other products from pine trees, wood and stumps; to own, run and operate stores, commissaries, etc.; to engage in the mercantile business; to purchase, own and hold land, timber and timber privileges, by deed, lease, timber permits and other form of contract, and to sell, lease, mortgage or otherwise dispose of the same; to acquire, own, hold, use, mortgage, lease, sell and convey property of all kinds, real, personal and mixed, including stocks and bonds; to loan money, to borrow money, and secure same by mortgage to secure debt, bond or other obligation therefor; to receive payment for the capital stock or the corporation in money or property at a just valuation to be fixed by the Board of Directors; to make contracts of all and every kind incident to and for the furtherance of its purposes and business, including contracts and debts between said corporation and individuals and other corporations; to make such by-laws as may be deemed best, and generally to exercise, enjoy all powers incident to the conduct and purposes of the said corporation, and to have, exercise and enjoy all rights, powers and privileges incident to corporations organized and existing under and by virtue of the laws of the State of Florida.

Article III—The amount of capital stock of this corporation shall be One Hundred Thousand Dollars, divided into one thousand shares of the par value of One Hundred Dollars each. The capital stock shall be subscribed for and ten per cent paid in before said corporation shall transact any business. All or any part of the capital stock of said corporation may be payable in or issued or used for the purchase of property, labor or service at a just valuation thereof, to be fixed by the Board of Directors at a meeting to be called for that purpose.

Article IV—This corporation shall continue, exist and have full power to exercise its corporate rights and franchise for the period of ninety-nine (99) years from the date of its corporate existence.

Article V—The business of said corporation shall be managed by a President, Vice-President, a Secretary, a Treasurer, and a Board of Directors consisting of five (5) members. The office of Secretary and Treasurer may be held by the same person, and the Directors may be increased to not more than seven (7) if the by-laws so provide.

The annual meeting for the election of officers by the stockholders of the corporation shall be held on the first Tuesday in January of each and every year. The stockholders shall meet on the first Tuesday in January, A. D. 1908, for the first annual meeting of the corporation, in the City of Gainesville, Florida, and until the officers of said corporation are elected at the first regular meeting in January, A. D. 1908, the business of this corporation shall be conducted by the following named officers: W. B. Phifer as President, S. F. Waits as Vice-President, S. D. Prince as Secretary and Treasurer, and W. B. Phifer, J. A. Phifer, H. L. Phifer, S. F. Waits and S. D. Prince, as Directors.

Article VI—The highest amount of indebtedness or liability to which this corporation may at any one time subject itself shall be One Hundred Thousand Dollars.

The names and residence of the subscribing incorporators, together with the number of shares of its capital stock subscribed by each, are as follows:

W. B. Phifer, Gainesville, Florida, 250 shares.

H. L. Phifer, Gainesville, Florida, 125 shares.

SOMEWHAT IMPROVED

Status of Affairs In the Strike of Telegraphers.

SEVERAL CIRCUITS WORKING

Labor Commissioner In Chicago Preparing to Make an Effort to Adjust Differences—Gompers Pledges Aid to the Telegraphers.

Chicago, Aug. 15.—All the Associated Press circuits radiating from the city of Chicago to the east, north, south and west were restored to a normal working basis Wednesday morning. The eastern circuit was fully manned Tuesday, two wires working throughout the day and night.

The north circuit to Milwaukee, St. Paul and Minneapolis was fully manned and sent forward the regular quota of report.

The southern circuit to Indianapolis, Cincinnati, Columbus and Louisville, was restored with only the city of Dayton missing when the wires were opened. The big western circuit opened for the first time to St. Louis, Kansas City, St. Joe and Omaha and will be extended to Denver and Colorado Springs during the forenoon.

Asks President to Intervene.

Chicago, Ills., Aug. 15.—The Chicago board of trade has formally called on President Roosevent to take a personal hand in settling the present strike of telegraphers and thus avert a catastrophe.

Chicago, Aug. 15.—It is reported here that Secretary Russell, of the telegraphers' union, has called a general strike. He could not be seen, but S. J. Konnenkamp, chairman of the executive board, said if Russell had not already called a general strike he would do so in the course of a few days.

Commissioner Neill and Secretary Easley, of the National Civic Federation, are quietly gathering facts on which to base action upon the arrival of President Small, while Mr. Gompers and Mr. Mitchell will attempt to adjust any internal strife in the commercial telegraphers' organization, that is, any understanding between the conservative and the hot-headed members.

Partial returns from 135 locals in the country voting on the strike proposition are overwhelmingly in favor of a general strike.

This ballot was carried on secretly by the local unions to test the pulse of operators everywhere.

There are several disquieting reports from railroad telegraph circles, which are regarded by the commercial telegraphers here as indicative of a growing spirit of restlessness among the railroad operators.

G. Dal Jones, local representative of the railroad men, said there was no danger at present of a stampede sympathetic strike, although the men in his union were enthusiastic in their support of the strikers.

Printers Support Strikers.

Atlanta, Aug. 15.—Atlanta telegraphers on strike have been given an emphatic, pronounced and unmistakable endorsement and an open support by the Atlanta Typographical Union No. 48. Without a dissenting voice the Atlanta typos voted to go down deep into the treasury of the International Typographical union and into their own bank account, too, for money to aid the strikers along to their Austerlitz or to their Waterloo.

May Call Out Railroad Men.

Chicago, Aug. 15.—Two great systems of railroads are threatened with a strike because of the use of the railroad wires in commercial transmission of messages. Secretary Russell, of the telegraphers' union, was notified that the Chicago and Northwestern railroad was sending commercial messages from the Milwaukee office of the road. E. J. Cassidy, an official of the telegraphers says the operators in the employ of the system would take a vote on joining the commercial men.

Will Begin New Paper.

Tifton, Ga., Aug. 15.—Claud Hanlon, one of the younger sons of the late Editor J. W. Hanlon, of the Ocilla Star, will begin the publication of the Alapaha Ledger at Alapaha, in Berrien county, in about two weeks. He has purchased the outfit of the Poulan Searchlight, formerly published at Poulan, Ga., from Editor Pelham and J. G. McPhaul, and is moving it to Alapaha this week, where he will at once begin the publication of the Ledger.

GEORGIA LEGISLATURE.

Vote on Disfranchisement Bill Is Again Delayed.

Atlanta, Aug. 15.—Partial for the passage of the anti-[illegible] Chisolm bill was the feature of only two sessions which [illegible] 122 to 106 it adopted the [illegible] administration [illegible] would not kill the last [illegible] Tuesday afternoon and another day of debate ensued without the members securing their wishes on the measure.

At a meeting of the finance committee of the senate, Colonel Nat E. Harris, of Macon, made a stirring speech against the 1 per cent income tax which was included in the general tax act which was passed by the house.

He said that while he was the representative of two railroads, that he came before the committee not as their representative but that he spoke only for himself. He contended that the railroads were merely an agent of the people, and that fully 150,000 people in Georgia secured their living from the railroads of the state.

He contended that if the act in the tax bill was passed that railroad construction in the state would be discouraged.

If the action of the house in passing the bill raising the tax on fertilizers per ton, sold in the state, from 10 to 25 cents is agreed to by the senate, the law will increase the income of the state from $80,000 to $200,000, according to the reports found in the department of agriculture.

The reports show that in 1906 for 8,000,000 tags there was purchased 8,000,000 tons of fertilizers, at 10 cents per ton, bringing into the treasury $80,000; if the 15 cents per ton is added the income will be $200,000.

The anti-pass bill of Hall was defeated in the senate general judiciary committee Tuesday afternoon by a vote of 5 to 2, and the original anti-pass bill of Senator Borne, which is a much more stringent measure than that of Senator Felder's, which was adopted by the senate, was reported back to the senate with the recommendation that it pass.

HOPE TO TIE UP ERIE.

Port Jervis Men, Who Have Kept Engines Going, Join Strikers.

Port Jervis, N. Y., Aug. 15.—About forty machinists, helpers and apprentices in the Erie railroad shops here went on strike. The men out are both night and day employees, both union and nonunion.

Special organizers J. C. Considine of Ottumwa, Iowa, and M. J. McMahon, of Susquehanna, of the International Machinists' association, are here in charge of the strikers.

Port Jervis is the only place on the Erie railroad that did not obey the general order issued by President O'Connell, of the Machinists' association, on May 24, 1907. It is said that the Port Jervis shops have been the bone of contention on the Erie system, as the work done here has kept the engines going on both divisions. At Susquehanna and Jersey City 200 men are out. Many others are on strike at different points along the line.

The strike is for the abolition of the piece work system and in favor of the adoption of the minimum rate of wages of 30 cents per hour.

LEGAL ADVERTISEMENTS.

BILL FOR DIVORCE.

In the Circuit Court, Eighth Judicial Circuit of Florida, in and for Alachua County—In Chancery—Ethel Gertrude Alford vs. Henry Alford—Bill for Divorce. Order Publication.

It appearing by affidavit attached to the bill filed in the above stated cause that the residence of Henry Alford, the defendant therein named, is unknown and that there is no person in the State the service of a subpoena upon whom would bind the defendant, he is over the age of twenty-one years; it is therefore ordered that said non-resident defendant be and he is hereby required to appear to the Bill of Complaint filed in said cause on or before Monday, the 2nd day of September, 1907, otherwise the allegations of said bill will be taken as confessed by said defendant.

It is further ordered that this order be published once a week for eight consecutive weeks in The Gainesville Sun, a newspaper published in said county and State.
